About Our Company

For the past 10 years, **Jaric St Vincent Ltd.** has been the leading provider of **Health, Safety, and Environmental (HSE)** and business support services in St. Vincent and the Grenadines. Our focus on excellence and innovation has made us a trusted partner across industries, ensuring safer workplaces, more efficient businesses, and better-protected communities.

We offer a **comprehensive range of services**, including **asbestos removal, air quality assessments, fire safety training, risk assessments, emergency preparedness, and workplace safety compliance**. Our expertise also covers **Defensive Driving Training, Fleet Management, and Corporate Risk Management** to help businesses operate confidently and compliantly.

Driven by a passion for safety, our skilled team brings years of experience to every project, delivering high-quality solutions for both individuals and companies. **At Jaric, our mission is clear: to create safer workplaces, stronger businesses, and a more resilient nation.**

Our Core Values

SAFETY FIRST

Prioritising the well-being of individuals and the environment by delivering expert solutions that ensure safe and compliant workplaces.

EXCELLENCE AND INNOVATION

Continuously improving and adapting our services to meet evolving industry needs, while maintaining the highest standards of quality and performance.

INTEGRITY AND RELIABILITY

Building trust through transparent, dependable services and long-term partnerships, committed to delivering results with honesty and professionalism.

The National Safety Council First Aid, CPR, and AED program is designed for easy appreciation of the material and includes power point presentations, videos, live demonstrations and practical sessions to develop “hands on” skills.

The course includes both theory and practical sessions of First Aid, CPR, and AED. Individuals will be provided with the skills and knowledge needed to effectively administer First Aid, CPR, and AED techniques. Attending and participating in the course gives the individual the technical information that is needed to confidently administer First Aid, CPR, and AED techniques.

COURSE CONTENT

- Bandaging and Splinting
- Sling and Swathe
- Upper and Lower Extremities Fracture Control
- First Aid for Cuts and Bruises
- CPR and Circulation
- An introduction to AEDs
- And much more!

CERTIFICATE

- On successful completion of this course participants will receive a Certificate and Card from the National Safety Council.

The Safe Driver "784" Defensive Driving Course is designed to provide drivers in St. Vincent and the Grenadines with the knowledge and skills necessary to drive safely and responsibly. This course will cover key topics related to local traffic laws, common driving hazards, best practices for maintaining a road safety culture, and the unique considerations of driving hybrid and electric vehicles. The course is tailored to address the specific driving conditions and regulations in St. Vincent and the Grenadines.

Course Objectives

- Understand the Motor Vehicles and Road Traffic Act of St. Vincent and the Grenadines.
- Recognize and mitigate the risks associated with distracted driving, impaired driving, and fatigue.
- Develop a strong road safety culture and adopt safe driving practices.
- Learn special considerations for driving in St. Vincent and the Grenadines, including local traffic patterns and conditions.
- Understand the basics of hybrid and electric vehicles.
- Gain knowledge of basic vehicle maintenance to ensure safety and reliability

BASIC FIRE AWARENESS TRAINING

Jaric St. Vincent Ltd offers the opportunity to learn fire safety in the most practical way possible, but without the hazard of a real fire. The course is designed for training and competence in basic knowledge of the causes of fire, and prevention and firefighting techniques as well as risk minimization as well as actions to be taken in the event of a fire or similar emergency.

The powered industrial truck, commonly referred to as the forklift, is an important and productive piece of equipment however they can also be dangerous if not properly used. This program designed specifically for forklift truck operators, examines their prior knowledge and skill, their demonstrated ability to operate a powered industrial truck safely and the hazards present in the workplace. The training is a combination of formal instruction and practical training (demonstration and practical exercises) and includes an evaluation of operator performance in the workplace.

COURSE CONTENT

- The critical truck measurements that affect safety.
- Truck design considerations
- Inspecting the vehicle
- Preoperational checkouts
- Driving the truck
- The elements of safe movement

CERTIFICATE

- On successful completion of this course participants will receive a Certificate and Card from the National Safety Council.

RESIDENTIAL & COMMERCIAL MOLD TESTING

DETAILS

We provide affordable Mold Testing Services with flexible payment plans, including one-time, bundled, and installment options.

CONTACT US

info@jaricsvg.com

jaricsvg.com

Our Mold Testing and Solutions services prioritize creating safe and healthy environments for both commercial and residential properties.

- For commercial spaces, we provide air quality assessments and mold inspections to identify hazards and offer solutions.
- For residential properties, we focus on air quality and mold testing to address potential health risks.

A common myth is that mold only affects dirty spaces, but it can grow anywhere, including clean homes or offices. Mold testing is essential as many occupants are unaware of mold issues that can cause health problems. Jaric St. Vincent Ltd. offers expert mold testing services for both residential and commercial properties.

Professional air testing can determine any contaminants exist and in what quantities. Samples are laboratory inspected and certified, providing official evidence that your commercial building has a problem.

Protecting Your People, Business, and Future

Why Risk Assessments Matter

Regular Health & Safety Risk Assessments help your business by:

- Identifying workplace hazards
- Preventing injuries and illnesses
- Ensuring regulatory compliance
- Reducing liability and avoiding fines
- Promoting a safety-focused culture

Our Risk Assessment Services

Jaric specializes in tailored risk assessments, including:

- Hazard Identification: Inspecting machinery, ergonomics, chemicals, fire risks, etc.
- Risk Evaluation: Assessing hazard likelihood and severity for prioritized control.
- Compliance Audits: Ensuring adherence to ISO 45001, OSHA, and local safety laws.

Construction Site Safety management involves identifying and eliminating hazards to ensure safe job sites through regulations, training, risk assessments, and inspections. Given the risks on construction sites, safety practices use various tools to minimize dangers and foster a positive culture.

OSHA defines the four pillars of safety as:

- Policies and objectives
- Risk management
- Safety assurance
- Safety promotion

These pillars are part of an ongoing process to improve safety by learning from past experiences.

HOTEL SAFETY MANAGEMENT SERVICES

At Jaric, we create a safe, compliant, and worry-free environment for your guests and staff with our Hotel Safety Management Services.

Our solutions include:

- **Emergency Preparedness & Training:** Train staff for emergencies like evacuations and medical situations.
- **Cleaning and Sanitizing Chemicals:** Maintain a hygienic, germ-free environment with approved solutions.
- **Fire Risk Assessments:** Identify hazards and develop a fire safety plan.
- **Food Safety Management:** Ensure proper food handling to prevent contamination.
- **Compliance with Industry Standards:** Stay compliant with regulations like OSHA, HACCP, and local laws.
